User Instruction Manual

User's Guide

1

The start page displays the main user interface, where you can scan a QR code to upload a file, view the file type, check your credits, and see the remaining paper count for both legal and letter sizes.

2

Figure shows that you can upload a file using your phone.

3

Shows a notification if the file has already been uploaded to the kiosk.

4

Shows that your file has already been uploaded.

5

Shows a preview of your file. You can zoom in or out, see the total number of pages, and choose between grayscale or colored printing.

6

Shows the print page, where you can choose to print all pages or specific pages. You can also select the orientation portrait or landscape, paper size legal or letter, view your available credits, see your change, and set the number of copies.

7

Shows a notification if the kiosk reaches 1,000 copies.

8

Shows a notification if you need to insert coins to continue the printing process.

9

Shows a notification if there are no more funds in the coin hopper.

10

Shows a notification if there is no more paper in the printer.

11

Shows a notification if the printer is running low on paper.

12

Shows a notification displaying how much funds are left in the coin hopper.

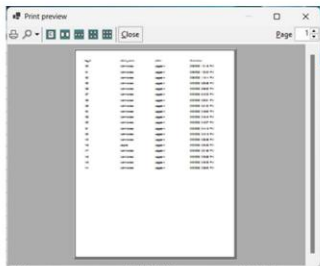

- 12** Users button shows the ID, Kiosk ID, username, and password.

- 13** Log History button shows the login ID, admin name, action, and timestamp.

- 14** Print button shows the print of report.

- 4 Shows that only the system administrator can access this section. It includes buttons to reload papers, reload funds, and adjust prices. The System administrator can also view reports.

- 5 Shows all the transactions for the day. It includes the total paper refill letter and legal sizes, the remaining funds, and the total income earned that day. This gives a clear summary of daily activities, making it easy to track resources and finances.

- 6 Shows the option to reload paper, including legal size and letter size.

- 7 System Administrator adds paper refills to the kiosk if the paper supply is low.

- 8 Shows the option to reload funds.

- 9 System Administrator adds funds to the kiosk if the available change is insufficient.

- 10 Shows the option to change the pricing for letter size, legal size, colored, and grayscale printing.

- 11 Shows the day's transactions. It includes the Transaction ID, Kiosk ID, Date, File Name, Number of Papers, Printing Type, and Amount.
